TO WHOM IT MAY CONCERN:

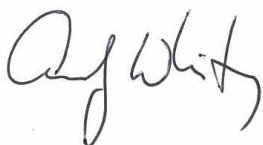

This is to certify that Nathalie Trudel has served ECLC International Kindergarten as a teacher intern for 8 weeks from January through February 2015. ECLC is a high quality early years program which provides schooling for students ages 2 to 6 years from the international community residing in Seoul, South Korea.

As a student of early childhood development with previous experience working with young children, Nathalie was able to both learn from and contribute to our Kindergarten program. We came to rely on her as a responsible and cooperative individual who was capable to follow teachers' instructions in carrying out classroom duties and responsibilities. She was professional in her behavior and friendly and cooperative in her interactions with both students and faculty. She engaged in her responsibilities with enthusiasm and positive energy. It was very clear that Nathalie had the passion and skill set to become a very capable teacher of young children. In fact, in many ways she had already achieved that. We have been happy that she has been available and appreciate the time she has given to our school.

I have complete confidence that Nathalie has the necessary interest, attitude and capabilities to become an exemplary early childhood educator. I can recommend her without reservation.

If you should have any further questions about Nathalie and her involvement here at ECLC, please do not hesitate to contact me at andywhitney@eclcseoul.com.

Best regards,

Andy Whitney
Head of School
